The Workstation

Foley United is pleased to present The Workstation! This portable workstation doubles as a workbench to conduct repair or assembly work on engines, trimmers and other golf course accessories, and also can serve as a lift for walkers and other cutting units.

Features and Specifications:

- Heavy-duty all steel construction for easy maneuvering
- Transport carriage with 4" (10 cm) diameter castor wheels
- 44.5" (113 cm) wide x 25" (63 cm) deep skid resistant steel lifting platform
- 39.5" (100 cm) working height capability
- 400 lbs. (180 kg) lifting capacity
- Anti Roll-off mechanism
- Floor stop device to prevent movement once platform has been raised
- Docking feature with reel grinder
- 12V Re-chargeable Sealed Power System

Specifications subject to change without notice.

The Workstation can be used to transfer reels into a grinding machine, and can easily be put into a stored position.

Setting heights-of-cut, making adjustments, and doing other reel work is made easier when the units are off the ground and at a friendly work height.

Whether its working on reels or trimmer and chain saw repair, there will be multiple uses for The Workstation in the workshop!

The Workstation will raise from a lowered floor position up to a height of 39.5" (100 cm).
