MOST.

# Greensmaster® Walk Greensmowers

## Greensmaster Flex™ Series

### Greensmaster Flex™

- Operator Control** – New multi-disk wet clutch for easy engagement/disengagement of traction and reel.
- All-New Variable Clip Frequency Settings** – Multiple easy-to-configure clip settings allow superintendents to customize frequency of clip for any playing condition.
- Superior Cutting Performance** – Patented Flex Technology and proven DPA cutting units provide superior ground following, precise mowing at lower heights of cut, and superior adjustment retention.
- Ergonomic Enhancements** – Convenient thumb wheel throttle for easy operation and speed adjustments.
- Simple & Reliable Transmission** – A single, belt drive transmission is simple and reliable delivering a consistent cut.
- Power and Performance** – A heavy-duty 4.3 hp Subaru® industrial engine is easy to start and has higher torque for optimal power.

### Greensmaster eFlex™

- Cutting Performance** – Identical cutting performance as the Flex engine models.
- Lithium Ion Battery Technology** – Mow up to 9 greens (45,000 sq.ft. / 4180 sq.m) on a single charge!\*
- Extremely Quiet With No Emissions** – Minimal noise and no emissions to reduce your impact on the environment and your golfing community.
- Innovative EZ-Turn™ Feature** – A Toro exclusive feature automatically slows the traction speed in turns for improved operator control.

(\*Average green = 5,000 square feet)

## Greensmaster 800, 1000 & 1600

- Legendary Quality of Cut** – Superintendents have relied on the classic Toro fixed head design for years to deliver an outstanding quality of cut.
- Easy Operation** – The enhanced controls console, loop-style handle design, and an all-new squeeze handle brake provide operator with complete control and easy operation.
- Power and Performance** – A heavy-duty 4.3 hp Subaru® industrial engine is easy to start and has a higher torque for optimal power on greens, tees and surrounds.

All Flex Series models feature multiple easy-to-configure clip rate settings to accommodate your desired cut and playing condition.

**NEW**

### EdgeSeries™ Reels

Toro EdgeSeries reels represent the next generation of cutting quality and durability with enhanced edge retention. In addition to new reel materials, the **EdgeSeries** incorporates new reel geometry and changes in the manufacturing process that result in a more consistent aftercut appearance.

[toro.com/edgeseries](https://toro.com/edgeseries)

# Greensmaster® Riding Greensmowers

## Greensmaster® TriFlex Series

### Greensmaster® TriFlex™

**Unparalleled Cutting Performance** – Double A-Arm™ Suspension and Flex Technology allow cutting units to closely follow turf delivering the productivity of a rider with the precision of a walker.

**Highly Productive and Versatile** – Tool-Free, Quick-Change cutting units remove in minutes making it easy to swap cutting units with attachments for the ultimate in versatility and productivity.

**Lift-In-Turn™** – Maintains a consistent, level cut on the clean-up pass.

**More Power and Performance** – 21 hp Vanguard® Twin gasoline engine and 24.8 hp Kubota® diesel engine have ample power for any application.

**Light Footprint** – Large, turf-friendly tires distribute weight evenly across the machine's profile to minimize tire marking.

**Easy to Service** – Maintenance enhancements such as the Tool-Free, Quick-Change cutting units and Lift-Gate Footrest save technicians time.

### Greensmaster® TriFlex™ Hybrid

**Cutting Performance** – Identical cutting performance and operator controls as the TriFlex hydraulic models.

**Highly Efficient Electrical Components** – Custom-designed components are highly durable and provide ample power for any mowing application or verticutting, on or off the green.

**On-Board Energy Storage** – Provides additional power during peak demands.

**EnergySmart™** – Features that save time and energy, and enhance productivity and turf health combined make the TriFlex Hybrid the first product to earn the EnergySmart label from Toro.

Greensmaster 3120

Greensmaster 3150-Q

Greensmaster 3250-D

## Greensmaster® 3120/3150-Q/3250-D

**Legendary Quality of Cut** – Known for excellence in quality of cut and overall engineering.

**Proven Performance** – Dependable and reliable performance for any mowing task on or around the green.

**More Power** – The 3250-D is now equipped with a 24.8 hp Kubota® diesel engine for superior performance and power.

**NEW**

### EdgeSeries™ Reels

Toro EdgeSeries reels represent the next generation of cutting quality and durability with enhanced edge retention. In addition to new reel materials, the **EdgeSeries** incorporates new reel geometry and changes in the manufacturing process that result in a more consistent aftercut appearance.

# Trim & Surrounds Mowers

## Toro Trim & Surrounds Mowers

When you need a reel trim mower whose cutting quality and versatility is second to none, the Toro® Reelmaster® 3100-D is the clear choice. It's the only reel mower with Sidewinder® technology that slides the cutting units side-to-side, on the fly, to reach turf that other mowers can't. It's perfect for mowing around greens and bunkers where precision control is a must. Add the legendary Toro cutting units and triplex configuration, and the 3100-D is the best reel trim mower on the market.

## Reelmaster 3100-D Sidewinder

The Reelmaster 3100-D is a unique triplex mower designed for superior performance on the golf course. The optional Sidewinder® cutting units can be shifted right and left, on the fly, for increased reel overhang and less turf wear-and-tear.

## Groundsmaster 3500-D Sidewinder

The Groundsmaster 3500-D, with Toro's exclusive Sidewinder® cutting system, shifts the Contour Plus cutting units from side to side to cut hard-to-reach turf. The 3500-D features a 68-inch (173 cm) width of cut and full time 3-wheel drive provides superior operator control. The 3500-D trims where ordinary rotaries can't.

## Groundsmaster 360 Quad-Steer

The Groundsmaster 360 maneuvers in close around trees and fences, so there's less trimming to do later. Fast, efficient and versatile, it features a 72-inch (1.83m) width of cut – ideal for secondary roughs, trimming around trees and clubhouse lawns. Need to cut back native grasses? Simply adjust the height of cut from 1 to 6 inches (2.5-15.2 cm) to fit your needs.

## Groundsmaster 7200/7210

The Groundsmaster® 7200 is a zero turn rotary mower rugged enough to be called a Groundsmaster. The 7200/7210 features multiple deck options from 60-100 inches (1.52-2.54m) and powerful 25 hp, 3-cylinder, liquid-cooled diesel engines. Durable heavy-duty 7-gauge welded deck construction and the industry's toughest spindle assembly provide long life.

## Groundsmaster 3280-D

The Groundsmaster 3280-D is an all-purpose outfront rotary mower that embodies the Toro standard for durability while meeting today's more stringent cutting demands. The 3280-D features multiple deck options from 52-72 inches (1.3-1.8m).

# Reelmaster® Fairway Mowers

NEW

## Reelmaster® 5010-H

The Reelmaster 5010-H gives you the power and performance you want with the fuel efficiency and reliability you need. Through its exclusive PowerMatch™ system, the Reelmaster 5010-H utilizes the power of a diesel engine in combination with a battery pack to supply over 40 horsepower, but only when conditions require. Electric motors on the cutting units, which feature low-friction seals and bearings, improve performance and reduce power requirements. The result is increased fuel efficiency, quieter operation, significantly fewer hydraulics and an unmatched quality-of-cut with our new EdgeSeries™ reels.

NEW

## EdgeSeries™ Reels

**Exclusive Hybrid Drive System** – PowerMatch technology enables the Reelmaster 5010-H to seamlessly match the power generated to the power required for traction and cutting based on the mowing conditions.

## Reelmaster® 3550-D

The new Toro® Reelmaster® 3550-D floats effortlessly over contours in fairways and green surrounds. With a productive 82" (2.1m) cutting width, our new EdgeSeries™ reels, turf-friendly tires, the superior traction of a Series/Parallel 3-wheel drive system, and a weight of less than 2,000 pounds, the Reelmaster 3550-D is engineered to make a big impression...without leaving one.

NEW

## Reelmaster® 3555-D/3575-D

The new Reelmaster 3555-D and 3575-D fairway mowers are 20% lighter and much more compact than traditional fairway mowers from Toro and others. The lighter weight combined with a highly productive 100-inch (2.54m) cutting width, the improved maneuverability of a 3-wheel drive compact chassis design, our new EdgeSeries™ reels and several other key features – take this fairway mower into a class of its own.

## Reelmaster® 5010 Series

Unrivaled productivity with a 100-inch (2.54m) cutting width, superior after-cut appearance, new EdgeSeries™ reels, and simplified maintenance. Discover these and any of the hundreds of other reasons why the top golf courses in the world choose the Reelmaster 5010 series for picture perfect fairways and unmatched value.

Reelmaster® 5410/5510/5610

## Reelmaster® 7000-D

The Reelmaster® 7000-D is a multi-use, heavy-duty reel mower designed for productivity and performance in the most extreme conditions. This mower has it all – power, productivity of a maximum 126-inch (3.07m) cutting width and provides a superior aftercut appearance. By the way, it's also an overseeding beast!

Reelmaster® 3575-D

**NEW**

## EdgeSeries™ Reels

Toro EdgeSeries reels represent the next generation of cutting quality and durability with enhanced edge retention. In addition to new reel materials, the **EdgeSeries** incorporates new reel geometry and changes in the manufacturing process that result in a more consistent aftercut appearance.

 [toro.com/edgeseries](http://toro.com/edgeseries)

Reelmaster® 7000-D

# Groundsmaster® Rough Mowers

## Groundsmaster® Contour Family

Since 1973, Toro Groundsmasters have been proven on the world's top golf courses, delivering consistent, clean cuts and breathtaking roughs. But we're not satisfied. That's why the new Groundsmasters are engineered with innovations like Sidewinder® cutting units for precise trimming, CrossTrax® all-wheel drive for superior traction, and SmartCool™ for unsurpassed cooling performance. No matter which Groundsmaster you choose, you'll get the legendary performance that makes this an unbeatable value.

Groundsmaster 3500-D Sidewinder

Groundsmaster 4300-D

Groundsmaster 4500-D

Groundsmaster 4700-D

Productivity per hour dependent on operator and turf conditions. Assume 85% efficiency for turns and overlap.

## Groundsmaster® 4000-D

The Groundsmaster 4000-D with an 11-foot (3.35m) width of cut delivers awesome mowing capacity. With the new SmartPower™ technology, high engine torque and patented, efficient deck drive systems, the Groundsmaster 4000-D delivers power where you need it most – to cut grass. The mower can mow a 0" uncut circle, allowing you to mow back and forth patterns without leaving any uncut grass. The parallel hydraulic traction system maintains consistent hydraulic flow between the front and rear wheels to ensure full time 4-wheel drive. This allows you to mow with confidence, even on hills and wet grass.

 [toro.com/4000](http://toro.com/4000)

## Groundsmaster® 4700-D

Is wider better? That's like asking if more productivity is better. The Groundsmaster 4700-D answers with a resounding yes, in the form of an awe-inspiring 12.5' (3.81m) width of cut. New SmartPower™ technology maximizes power to the cutting decks and lets you mow up to 8.9 acres per hour. Add in 7 floating Contour™ Plus cutting units, full-time bidirectional 4-wheel drive and the innovative Smart Cool™ system, and you have productivity and performance no other mower can touch.

 [toro.com/contour](http://toro.com/contour)

NEW

## More Comfort. More Power. More Versatile. More Control.

The Workman GTX is a grounds and turf crossover vehicle that boasts an unequalled combination of comfort, power, utility and control, making it simply superior to the competition. Its increased power, improved steering and exclusive suspension and braking systems make the Workman GTX the most versatile, practical and comfortable utility vehicle in its class. Available in gas or electric options, the Workman GTX features hundreds of configurable options that include front and rear attachments, a flat bed and a four-seat option, to name a few. So whether you are setting cups, checking on irrigation, or moving people or materials, the Workman GTX has the power and versatility to get the job done right.

## Simply Superior.

Bench Seats

Bucket Seats

ATV Tires

Radio/Phone/Cupholders

Rear Attachments

### Features:

- **Power** – Whether you choose the 429 cc gasoline or 48 volt A/C electric Workman GTX, power and performance come standard. An improved power to weight ratio boosts payload capacity and productivity by allowing you to do more, every day!
- **Steering** – An automotive-grade rack and pinion steering system provides more control and lowers steering effort, while operating loaded or empty. This allows operators to focus on the task at hand and nothing else.
- **Suspension** – Coil-over shocks all around the vehicle deliver greater suspension travel and adjustability resulting in a smoother ride and minimized operator fatigue.
- **Versatility** – The Workman GTX is adaptable to support any task. Two or four-seat configurations come with bench or bucket seats. Front and rear attachment points to attach garbage cans, hose reels or walk spreaders free up the bed for more hauling capacity. Four and six-foot (1.2m & 1.8m) flat beds are also available.
- **Hydraulic Disk Brakes** – Minimal maintenance, no cable adjustment and less pedal force than mechanical cable brakes affords the Workman GTX reliable and consistent stopping power.
- **Durability** – Virtually unbreakable composite exterior components and a powder coated frame and underbody give the Workman GTX superior durability. Run it hard, day after day.

# Workman® MDX & HD Utility Vehicles

NEW

## The Workman® HDX Auto. More productivity is automatic.

Now you can get the power, versatility and reliability you'd expect from a Toro Workman with something you wouldn't, an automatic transmission! With the new Workman HDX Auto, there's no clutch, no shifting and no sacrifices. Forget about training operators how to drive a manual transmission. No more tires slipping as you let out the clutch. With a powerful 28 hp Kohler® engine, you can go from zero to climbing the toughest terrain effortlessly, even with a fully-loaded bed mounted ProPass™ 200 Topdresser.

### Precision application rates on any terrain.

Toro's proprietary SpeedContr'l™ makes it easy for operators to maintain consistent speed over rolling fairways and hills, ensuring accurate rates when you're topdressing and spraying.

## Workman® HD Series

Get more work done with the versatile Workman HD series utility vehicles. Industry-leading towing capacity of 3500 lbs. allows you to safely tow a ProPass 200 top dresser full of sand. Four-wheel hydraulic brakes and payload of up to 3,300 lbs. enables you to heap it full of sand, sod or dirt without hesitation.

The DeDion rear axle with I-beam isolates and protects transmission, engine and main frame from heavy loads. Independent, double A-frame front suspension provides exceptional ride quality and comfort and the independent suspension absorbs rough terrain – not the operator.

### Model Options:

- HD – Two-wheel drive, Kohler® 674cc air-cooled
- HDX – Two-wheel or four-wheel drive  
Kubota® 962cc liquid-cooled EFI
- HDX-D – Two-wheel or four-wheel drive  
Kubota® 898cc liquid-cooled diesel
- HDX Auto – Two-wheel or four-wheel drive  
Kohler® 747cc liquid-cooled EFI

## Workman® MDX Series

Superior ride quality is achieved through independent front suspension, coil over shocks, and an extended cab design. The active in frame Twister™ joint improves traction and stability while minimizing turf damage. Combine all of these features including a payload up to 1650 lbs. and four-wheel hydraulic brakes letting you to get more done safely in less time with less fatigue.

### Model Options:

- MDX – Briggs & Stratton® 480cc
- MDX-D – Kubota® 600cc

NEW

## Multi Pro® 5800 with GeoLink™ Precision Spray System

GeoLink™ is the industry's first turf-based precision spray system. Turf professionals will benefit from substantial chemical savings thanks to individual nozzle control and the available sub-inch accuracy. Reporting is simple with GeoLink; application rates, coverage maps, area and volume data are easily downloaded for thorough record keeping. The weatherproof touchscreen is rugged enough to withstand challenging conditions and makes application programming straightforward with just the touch of a button.

**Easy-to-Use Touchscreen** – A large, weatherproof touch screen shows the machine's location and allows the operator to create and choose spray jobs containing multiple spray zones. When the job is finished, the system provides accurate job reports that can be downloaded for analysis.

**RTK GNSS Spray System** – GeoLink is the first turf-based spray system, not agricultural based like competitors. It utilizes cellular Real Time Kinematic (RTK) correction technology to provide sub-inch accuracy. This sophisticated communication system receives location data from multiple satellites and a correction source to provide precise location information. This means the user is required to map each spray area only once and can then spray it with precision year after year, saving time and resources.

 [toro.com/multipro](http://toro.com/multipro)

NEW

## Multi Pro® 1750 with GeoLink™

Earning the market leader position in turf vehicle sprayers comes from listening to what your customers truly want in a sprayer. Toro's 175-gallon (662 liter) dedicated vehicle sprayer is the culmination of hundreds of hours of insightful customer input. This proven sprayer uses the advanced spray system design of Toro's extremely successful Multi Pro 5800, 300-gallon (1135 liter) sprayer, combined with cutting-edge sprayer controls and productive vehicle features to create the most advanced, efficient and accurate 175-gallon (662 liter) sprayer on the market. From aggressive agitation, faster response, consistent and accurate application rates, and intuitive rate set up, to precise vehicle control, this sprayer, like its larger brother, has it all.

## Multi Pro® WM

The Multi Pro WM advanced spray system for Toro's Workman® HD or the HDX utility vehicle leverages the reliable system design found on the Multi Pro 5800 and Multi Pro 1750, and offers flexibility not found with dedicated spray vehicles. Considerable effort was dedicated to making the Multi Pro WM easy to install and easy to remove, allowing users to convert their spray vehicle to a topdresser vehicle for example, or simply back to a utility vehicle with a bed. All of the same popular attachments found on the dedicated sprayers are also available for this 200-gallon (757 liter) bed-mounted sprayer.

 [toro.com/multipro](http://toro.com/multipro)

**NEW**  
**GreensPro 1260**

The GreensPro 1260 delivers exceptionally smooth and fast greens with a superior operator platform. The split, contour following smoothing rollers perfectly follow undulations delivering exceptionally smooth putting surfaces. The operator platform is fully adjustable for unmatched comfort and operator safety. The new transport system featuring a QuickLatch coupler will make transporting from green to green unbelievably quick and simple.

- Direct drive traction roller design dramatically reduces maintenance with improved reliability
- Offset smoothing rollers deliver unmatched roll consistency and will not leave a ribbon of unrolled turf
- Fully adjustable operator platform offers comfort and safety
- Independent, articulating smoothing heads follow undulations, preserving natural contours
- Remarkably light tongue weight makes mounting and dismounting easier than ever
- Industry-leading roll-to-transport conversion can easily be done regardless of operator height

Offset smoothing roller design for uniform greens appearance and playability

## HoverPro Series

The Toro HoverPro is perfect for maintaining turf on steep slopes, tight undulations, areas near water or bunker lips. A light footprint makes the HoverPro easy to operate while its rugged design ensures years of quality performance.

HoverPro 400      HoverPro 450      HoverPro 550

### Cutting Systems

Nylon Wire – (HoverPro 400)

Steel Cutting Blade – (HoverPro 450 & 550)

## ProStripe 560

The ProStripe 560 combines exceptional turf striping with the simplicity of a walk power mower. It is the ideal mower for striping smaller turf areas and can easily maneuver into tight locations.

The unique split rear-roller with integrated differential enables tight turns with minimal risk of turf damage.

# Sand Pro<sup>®</sup> Bunker Rakes

# ProCore<sup>®</sup> Aeration Solutions

NEW

## Sand Pro<sup>®</sup> 2040Z

The all-new Sand Pro 2040Z mechanical rake is unlike anything else in the marketplace; a zero-turn mechanical groomer delivering unmatched maneuverability and productivity. This unique machine is a daily use bunker rake that will reduce a golf course's labor costs for both mechanical and hand raking of bunkers. A brand new "flex" raking system with the patent-pending "lift-in-turn" feature enables an operator to turn tightly in bunkers without leaving unraked teardrops or tire marks. The nimble Sand Pro 2040Z will save you valuable time in your workday, improving bunker playability and consistency.

ProCore<sup>®</sup> 648

ProCore<sup>®</sup> 864

ProCore<sup>®</sup> 1298

ProCore<sup>®</sup> Processor

## ProCore<sup>®</sup> SR Series deep tine aerators

The Toro ProCore SR Series deep tine aerators offer a variety of solutions to alleviate soil compaction on greens, tees, fairways or rough. From lightweight, precision machines for more sensitive turf to robust heavy-duty machines to break up the soil on even the most compacted surfaces, the ProCore SR Series deep tine aerators are the ultimate choice for performance and quality.

Sand Pro<sup>®</sup> 3040/5040

Sand Pro<sup>®</sup> 2040Z

## Sand Pro<sup>®</sup> 3040/5040

Sand Pro bunker rakes feature innovations that elevate the overall versatility and reliability of bunker maintenance machines. The Quick Attach System (QAS), allows operators, in less than a minute, to switch from among 21 different attachments – without tools.

NEW The **QAS Flex Tooth Rake** offers productivity and performance advantages to your daily grooming. This new Sand Pro attachment features a flexible rubber groomer delivering an exceptional groom while being gentle on turf and bunker liners.

## Pro Force<sup>®</sup>

The Pro Force delivers impressive air power for fast removal of grass clippings, leaves, divots, aeration cores and other debris from your golf course. A newly redesigned hand-held wireless remote control makes it incredibly easy to use. Rotate the nozzle 360 degrees in either direction, adjust the engine speed up or down, and start and stop the engine with the remote control.

**NEW**

### Pro Force debris blower for Groundsmaster<sup>®</sup> 360 Quad-Steer<sup>™</sup> 4WD

Compact vertical design delivers unmatched maneuverability. Hydraulic chute control with 245° nozzle rotation improves directionality of nozzle with 90° angle to ground and allows operator to quickly change air flow direction which improves efficiency. Quickly mounts with Toro's Quick Attach System and is PTO-driven for outstanding power and performance. The Pro Force blower increases mower productivity through multi-season versatility.

**Vertical mount** – attaches to Groundsmaster<sup>®</sup> 360 4WD front QAS system – increasing versatility

## Pro Force Configuration Options

**Turf trailer** – wide turf friendly tires that are gentle on any surface

**Bed mount** – compact design & improved maneuverability

## Pro Sweep<sup>®</sup>

The Pro Sweep is the fastest way to get your course back in play after aeration. A handheld controller allows the operator to wirelessly control sweeping and dumping of the unit combined with the ability to move the sweeper from tow to offset position without leaving the tow vehicle driver's seat.

## Rake-O-Vac<sup>®</sup>

The Rake-O-Vac delivers a clean sweeping environment due to the airflow system that directs the dust downward at ground level. A flex tip reel gently lifts wet or dry debris with an optional broom that works well for sweeping Bermuda grass during scalping operations.

## ProPass<sup>™</sup> 200

Healthy turf starts with consistent topdressing. Now it's easy to achieve your desired spread time after time with the ProPass 200. The ProPass 200 ensures a consistent spread pattern and application rate every time with a patented color-coded "drop zone" adjustment system. Just slide the twin spinner assembly into place and you can be sure your turf is getting the optimum treatment. The precisely defined spread area makes it easy to match edge line to edge line with each pass.

## MH-400 Material Handler

Get ready to take productivity to new levels with the Toro MH-400. This proven workhorse excels at a wide range of tough jobs, from transporting materials to cleanup, construction, daily maintenance, and large area topdressing. Without any optional accessories, the MH-400 is the ultimate work trailer. But you can quickly and easily transform it with the optional swivel conveyor, or the twin spinner attachment which turns the MH-400 into a large area topdresser.

## BETTER INFORMATION FOR BETTER DECISIONS

The Toro® Lynx® Central Control System was developed specifically to help you address the unique challenges and changing priorities you face every day. With Lynx, you can now have all of your essential irrigation information readily available in one place, conveniently combined into a single, intuitive interface.

### Easy to Set Up

Lynx® was developed for quick setup – it gives you a fast, accurate way to setup your system to put water exactly where you want it, and then allows you to make edits as your course conditions change.

### Easy to Use

Lynx® has a distinct user interface that combines all essential data and intuitively presents the information you need (alerts, scheduled watering and more) at a glance. It's easy to access all the information you need with one click through your Favorites Menu.

### Easy to Access

Lynx® empowers you to take quick, accurate action. Use NSN Connect for full remote access or Lynx Mobile for quick remote control. In a hurry, use Lynx Map or Lynx Hand Held to turn something on or off. Trouble shooting a 2-wire system? Let Lynx Bar Code save you the trip back to your office.

### National Support Network (NSN)

Toro's exclusive National Support Network provides software and network assistance from experienced service professionals who understand what you need. NSN Connect allows easy remote access to your irrigation system from anywhere. NSN Connect provides full remote access to your entire system. Lynx mobile provides comprehensive remote control and system status.

### Superior course map editing, creation and interaction

The advanced functionality of the Lynx® Central Control System enables you to **edit your course map easily, or create your own fully interactive map** using a digital image of your course. Setting up your map is simple, and Lynx® lets you **program and control your irrigation activities right from the map**, with instant access to operation feedback from the rest of your irrigation system.

### Integration with other system components

Lynx® offers integration with other turf management components, giving you access to all of the information needed to support your irrigation management. Lynx can be seamlessly integrated with field hardware, weather stations, electrical systems, smartphones and much more, including the Toro® Turf Guard® Wireless Soil Monitoring System.

### Comprehensive reporting increases your productivity

Armed with the thorough reports provided by Lynx, you'll be able to **immediately address any irrigation concerns and avoid potential course damage** . . . or just move on to other tasks when Lynx lets you know that things are running as planned.

## Lynx® Mobile Apps Provide Remote Control

Lynx Mobile Apps enable you to control your irrigation system from your smart phone or tablet. Available for both iPhone™ and Android™ devices, Lynx Mobile Apps offer map and numeric based interfaces for manual irrigation, as well as an easy way to enter or edit GDC module addresses.

Innovative, Flexible and Best-in-Class Field Control Options

## LYNX Smart Satellite Control

Provides distributed control and added security via intelligent field controllers with an intuitive user interface

- ✓ Station Based Flow Management helps reduce water window and optimize pump operation
- ✓ Current Sensing provides protection by monitoring each station output for proper amperage draw
- ✓ Stores and runs a fully flow-managed irrigation schedule in the event the central computer is offline
- ✓ Stand-alone capabilities enable you to conduct manual irrigation or to make system adjustments directly from the satellite faceplate
- ✓ Station runtimes are executed to the second to provide precise irrigation
- ✓ 2-way wired or wireless communication options enable flexible system design and installation

## LYNX GDC 2-Wire Control

Provides direct control via intelligent modules installed inside or near each sprinkler

- ✓ All system components are below ground, which helps maintain course aesthetics
- ✓ Lowest cost system option due to reduced amount of wire
- ✓ Continuous 2-way communication and automated diagnostics ensure system integrity
- ✓ Best-in-class broadband lightning protection
- ✓ System can be expanded easily by adding modules to the wire path

Toro INFINITY™ and FLEX800™ Series sprinklers can be ordered with integrated GDC modules

Custom pedestal color options help satellites blend into their natural surroundings

## LYNX Smart Hub

Lynx Smart Hub is a new type of field controller that adds security, programmability and sensing to the benefits and simplicity of a two-wire system.

- ✓ Irrigation system can be segmented into manageable areas for simplified maintenance
- ✓ Provides for in-field manual operation or troubleshooting
- ✓ Stores and runs a fully flow-managed irrigation schedule in the event the central computer is offline
- ✓ Creates a convenient point of connection for soil, flow and status sensors

# INFINITY<sup>®</sup> SERIES GOLF SPRINKLERS

Engineered for Today's Challenges.  
Designed for Tomorrow's Technologies.

The INFINITY Series improves your course quality with less workload and most important, it keeps golfers playing. Calculate the money you'll save by cutting sprinkler maintenance from hours to minutes.

### Smart Access<sup>®</sup>

Provides top accessibility to all critical components.

- ✓ No digging or unsightly turf repair scars
- ✓ Pilot valve removable with water "ON"
- ✓ GDC 2-wire module accessible from the top
- ✓ Customizable marker
- ✓ No buried wire splices or ground faults
- ✓ Replaceable cover if damaged
- ✓ Increased labor efficiency
- ✓ Lower long term cost of ownership

### Future Proof

The SMART ACCESS<sup>®</sup> compartment provides room to grow. Whatever the future holds, this sprinkler will be ready.

### Protective Enclosure

The protective enclosure isolates wire splices from the soil and potential shorts to ground. Provides access for system troubleshooting and repairs without digging!

# FLEX800<sup>™</sup> SERIES GOLF SPRINKLERS

Golf sprinklers with all the efficiency and proven performance features and benefits of the 800S and DT Series

## FEATURES AVAILABLE IN INFINITY AND FLEX800 SERIES

**TRAJECTORY ADJUSTMENT**  
24-position TruJectory<sup>™</sup> or Dual trajectory to help fight the wind, avoid obstacles or reduce the radius.

**NOZZLE BASE CLUTCHING**  
Hot spot watering has never been easier, simply turn, hold and shoot to put down as much water as needed.

**LARGE NOZZLE SELECTION**  
From 20' to 100' we've got you covered! Toro provides the flexibility to optimize your system for maximum uniformity.

**PART AND FULL CIRCLE MODELS**  
Align part circle sprinklers quickly and easily or adjust watering locations to suit seasonal needs.

# Toro Professional Services

## Toro University

Toro is committed to providing you with the information you want, when you want it, and how you want it. That's why we supply learning opportunities and performance support to you in many different ways. Along with a complete selection of printed Service Manuals and Training Guides, we also provide information on CD-ROM, DVD, and on [www.toro.com](http://www.toro.com).

## Toro Financing Solutions

Whether choosing maintenance equipment or irrigation components for a renovation, your Toro representative has experience and is trained to help you look beyond the simple financing of one item to the next, to looking at your longer-term equipment and economic needs. It's not a one size fits all plan. Looking at the total cost of ownership will help you find the right acquisition solution for your course's specific needs. Toro has partnered with the premier golf financing companies in the industry to meet your needs.

## Toro Protection Plus™

To ensure your ongoing success and satisfaction with our products, Toro offers outstanding after-sale support like our exclusive Toro Protection Plus extended protection plan, the industry's most comprehensive protection program. There's no better way to protect your investment and stabilize your budget.
