SINCE 1970

2019 WINTER IRRIGATION SPECIALS

SAVE TIME, SAVE RESOURCES, SAVE MONEY

Take advantage of special pricing and payment terms to stretch your budget. Use the Winter Order Program to purchase ANY irrigation products for backup inventory, system upgrades, or any small projects coming up.

Take delivery now - and don't pay for it until later!

- Orders for products and services purchased before May 1, 2019 can get special dating and be due September 1, 2019.
- To receive special dating, orders must be a minimum of \$1,500 and be limited to an account maximum of \$50,000.
- Get a special wearable for every \$2,500. (Limit 8 per customer).

Special dating is only available to customers with a credit worthy account in good standing. Purchases may not be returned for credit unless replaced by items of equal value within 60 days.

If you have older sprinklers that need replacement or doing a small project requiring additional coverage, this program will allow you to get the newest sprinklers available. From the unmatched **Toro INFINITY** and the **Toro FLEX Series** to the **Toro B Series Rotors**, there is a sprinkler that will fit any of your needs.

B SERIES ROTORS:

- Designed for block systems
- Small exposed surface area
- Same performance as 1" FLEX & INFINITY
- Flanged body and check valve
- 1" FPT or ACME inlet

FLEX SERIES:

- Constant velocity full circle drive
- Stainless steel valve seat
- Industry's largest nozzle selection
- Hot spot watering with part circles
- Standard 15°/25° Dual Trajectory

INFINITY SPRINKLERS:

- No digging or unsightly turf repair scars
- No buried wire splices or ground faults
- Pilot valve removable with water "ON"
- Lower long-term cost of ownership
- Customizable marker
- Increased labor efficiency

BUY 4 SPRINKLERS - GET 1 FREE

Program ends April 30, 2019 or when program max is reached. Limit of 10 free sprinklers per customer. Sprinklers with Integrated 2-wire Modules are Excluded.

Ordering Information for INFINITY and FLEX Sprinklers

FLX54RB-5154	Full Circle Conversion Assembly w/Dual Trajectory for Rain Bird, #51-54 Nozzles
FLX54RB-5558	Full Circle Conversion Assembly w/Dual Trajectory for Rain Bird, #55-58 Nozzles
FLX55RB-5154	Adjustable Arc Conversion Assembly w/Dual Trajectory for Rain Bird, #51-54 Nozzles
FLX55RB-5558	Adjustable Arc Conversion Assembly w/Dual Trajectory for Rain Bird, #55-58 Nozzles
FLX55-6RB-5154	Adjustable Arc Conversion Assembly w/Trajectory for Rain Bird, #51-54 Nozzles
FLX55-6RB-5558	Adjustable Arc Conversion Assembly w/Trajectory for Rain Bird, #55-58 Nozzles

Adapter collar part #102-0950 is required to upgrade TORO 650, 670, 680, 750 & 780 Series sprinklers.

Adapter part #102-5011 is required to upgrade Toro 690 Series sprinklers.

Update your existing Toro 800S or DT Series sprinklers with the **INFINITY Body** upgrade. Your existing drive assembly will pop right in and you will then reap all benefits of Smart Access.

BUY 4 INFINITIY BODIES - GET 1 FREE

Program ends April 30, 2019 or when program max is reached. Limit of 10 free bodies per customer.

Ordering Information for INFINITY Bodies	
Part No.	Description
INF30-06-2	1" NPT Thread INFINITY Body Assembly w/Spike Guard Solenoid
INF30-2	1" ACME Thread INFINITY Body Assembly w/Spike Guard Solenoid
INF50-06-2	1½" NPT Thread INFINITY Body Assembly w/Spike Guard Solenoid
INF50-2	1½" ACME Thread INFINITY Body Assembly w/Spike Guard Solenoid

The **Lynx Smart Satellite** is designed to improve performance and reliability. Picking up where the accomplished Network VP left off, the Lynx Smart Satellite adds enhanced communications with the Lynx Central Control System and integration with field sensors to further complement your decision making. Lynx Smart Satellite is also fully compatible with Network VP and Network 8000 systems as an addition or replacement.

Designed for Performance

Faster microprocessor and increased memory for high performance and the capacity for future enhancements.

Designed for Reliability

Fewer cables and connectors, corrosion-resistant metals, clear vented circuit board covers, and simplified power distribution contribute to greater reliability.

Enhanced Wireless Communications

New digital radio option with an integrated modem provides improved communication signal integrity, new diagnostic information, and control options.

Optional Sensor Input Kit

Designed to integrate with the new Sensor Input Kit, allowing either local or Lynx Central response to information from anywhere on the course.

The **OSMAC G3 Satellite** is easy to install, troubleshoot and maintain. As a direct replacement for the trusted E-OSMAC, the G3 now allows for stand-alone operation. It utilizes paging technology to create one of the most convenient, dependable and flexible satellites on the market. Employing wireless communication, these satellites are great for retrofit projects. The OSMAC G3 is available as a complete satellite or an upgrade kit for existing E-OSMAC's.

Low Cost Wireless Communication

Ideal choice for upgrading existing systems. No communication wires are needed.

Stand-Alone Operation

Capabilities include scheduled irrigation programs, manual program start and station multi-manual.

Lower Operating Costs

The enhanced surge protection on the OSMAC G3 is ideal for high lightning areas.

Enhanced Diagnostics

Page Log records and Received Signal Strength Indication at the satellite aids in system installation and troubleshooting.

FOR EXISTING TORO SYSTEMS: BUY 10 SATELLITES - GET 1 FREE

Program ends when 50 control systems are sold nationwide or by October 4, 2019, whichever comes first. The program only applies to Lynx Smart Satellites and OSMAC G3 Satellites with a maximum of 5 free per customer.

FOR NON-TORO SYSTEMS: BUY 10 SATELLITES - GET 3 FREE

Program ends when 25 control systems are sold nationwide or by October 4, 2019, whichever comes first. The program only applies to Lynx Smart Satellites and OSMAC G3 Satellites with a maximum of 10 free per customer.

IN ADDITION TO THE ABOVE PROGRAMS, CUSTOMERS WILL ALSO BE QUALIFIED TO GET A COMPLETE TORO LYNX CENTRAL OR UPGRADE AT A SPECIAL DISCOUNTED PRICE!

The **Network LTC Plus to Network VP** upgrade kit provides the latest satellite technology and gives you the opportunity to upgrade your central to the Toro Lynx Control System. The kit installs in minutes and includes a new faceplate, power distribution board and interface cable.

Features & Benefits:

- Station based flow management shortens watering window
- Intuitive user interface simplifies manual irrigation
- Station runtimes executed to the second helps save water
- Upgrade to Lynx for enhanced central capabilities
(Requires all satellites to be upgraded)

Part # 118-0038: \$1,295.00

BUY 2 LTC Plus to VP KITS - GET 1 FREE

Program ends when 500 kits are sold nationwide or by October 4, 2019, whichever comes first.

The **Network LTC Plus to LTC Pro** upgrade kit provides a forward step towards eventually upgrading your central to the Toro Lynx Control System - at your budget's pace. The kit installs in minutes and includes a new faceplate, power distribution board and interface cable.

Features & Benefits:

- Intuitive user interface simplifies faceplate functions
- Stackable multi-manuals and station runtimes executed to the second
- Backwards compatible with SitePro
- Eventually upgrade to Lynx for enhanced central capabilities

Part # 118-4838: \$1,295.00

BUY 2 LTC Plus to LTC Pro KITS - GET 1 FREE

Program ends when 500 kits are sold nationwide or by October 4, 2019, whichever comes first.

The **E-OSMAC to OSMAC G3** upgrade kit allows you to get stand-alone capability and diagnostics. The kit installs in minutes and includes a new faceplate and interface cable.

Features & Benefits:

- Stand-alone capabilities include scheduled programs and multi-manual
- Received Signal Strength Indication at the faceplate
- Page Log records the last 100 commands received by each satellite
- Improved radio performance for difficult environmental conditions

Part # 118-2987: \$1,395.00

BUY 3 E-OSMAC to OSMAC G3 KITS - GET 1 FREE

Program ends when 500 kits are sold nationwide or by October 4, 2019, whichever comes first.

IN ADDITION TO THE ABOVE PROGRAMS, CUSTOMERS WILL ALSO BE QUALIFIED TO GET A TORO LYNX CENTRAL UPGRADE AT A SPECIAL DISCOUNTED PRICE!

LYNX UPGRADE AT NSN RENEWAL

The **Toro Lynx Control System** was developed specifically to help you address the unique challenges and changing priorities you face everyday. With the Lynx System, you can now have all of your essential irrigation information readily available in one place, conveniently combined into a single intuitive interface.

If you have an existing Toro NSN subscription and you're ready to move to Lynx, this program combines the NSN renewal with a Lynx upgrade package, all rolled into a monthly installment plan. Each plan includes 36 months of NSN support, installation of the Lynx software and Lynx mobile apps.

Customers must have qualifying field control installed (Toro Smart Satellite, Toro VP, OSMAC, GDC 2-wire, LTC Pro). Use the aggressive satellite upgrade plans on the previous pages to get your system ready for Lynx!!

Part No.	Description	Initial Payment	Monthly (36 months)
NSN-LYNX-UPG	PLAN A	\$599.00	\$457.00
<i>- Includes NSN Classic 36 Plan with NEW COMPUTER, 3 years support and updates, NSN Training, Lynx upgrade, and Lynx mobile apps.</i>			
NSN-LYNX-UPG-RIU	PLAN B (for OSMAC)	\$599.00	\$505.00
<i>- Includes NSN Classic 36 Plan with NEW COMPUTER, 3 years support and updates, NSN Training, Lynx upgrade, and Lynx mobile apps. Also includes a new dual-radio RIU-02 (with return of functioning OSMAC Base Station and Power Supply).</i>			
NSN-LYNX-UPG-ESS	PLAN C	\$0.00	\$375.00
<i>- Includes NSN Essentials 3 years support and updates, Lynx upgrade, and Lynx mobile apps. Customer must have a qualifying central computer in place.</i>			

Program ends October 4, 2019.

PLEASE NOTE: These programs do not qualify for TPC special extended payment terms since all billing will be done directly through NSN.

FieldScout TruFirm Firmness Meter

Based on technology developed by the USGA, the FieldScout TruFirm offers a quick method to measure the firmness of turf, bunker sands, and other playing surfaces.

- Quantify the influence of your practices
- View measurement on LCD Display
- Evaluate and monitor sections of turf
- Instantly see data on your mobile device
- The lower the value, the firmer the surface
- Lightweight design with carrying case
- Includes Bluetooth

Part No.	Description	Special Price
STI-6490S	TruFirm Firmness Meter with Bluetooth <i>-Includes carrying case.</i>	\$650.00

Special Pricing ends April 30, 2019

SpecConnect FieldScout Mobile App

Capture and analyze measurements on your turf using Bluetooth wireless technology on FieldScout TDRs 350, 300* and TruFirm.

* TDR 300 must have Bluetooth adapter

- Visualize real-time readings on your mobile device
- Color-coded to represent a scale of moisture, EC, surface temp or turf firmness
- E-mail relevant info to communicate results
- Free download from Apple App Store or Android Google Play

Pro Mode requires a SpecConnect subscription and includes:

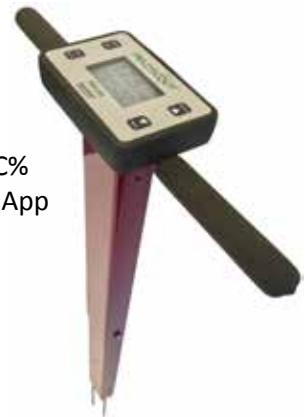

- Google Maps dynamic satellite image with readings overlaid on your property
- Freeform Mode plots a point for each reading and stores data independently
- Automatic wireless upload to SpecConnect from your personal web portal
- Color Gradient Mapping of data points within custom selected areas

Part No.	Description	Price
	FieldScout Mobile App	FREE
STI-3035	SpecConnect FieldScout Pro Subscription <i>(1-year subscription) 1-3 DEVICES</i>	\$199.00
STI-3035B	SpecConnect FieldScout Pro Subscription <i>(1-year subscription) 4-7 DEVICES</i>	\$399.00
STI-3035C	SpecConnect FieldScout Pro Subscription <i>(1-year subscription) 8 OR MORE DEVICES</i>	\$599.99
STI-6453BT	Bluetooth Device for TDR 300 <i>(Included on New TDR350)</i>	\$99.00

FieldScout TDR 350 Soil Moisture Meter

The next generation FieldScout TDR 350.

- Improved ergonomic design
- Now measures EC & temperature with VWC%
- Compatible with SpecConnect & FS Mobile App
- Data at your fingertips!
- Integrated Bluetooth and GPS
- **Infrared Temp Sensor Option** available to monitor turf heat stress

Part No.	Description	Special Price
STI-6435	TDR 350 Soil Moisture Meter <i>-Includes carrying case. Order Rods separately.</i>	\$1,405.00
STI-6428FS3	Two 1.5" TDR Rods	\$55.00
STI-6429FS3	Two 3" TDR Rods	\$55.00
STI-6431FS3	Two 4.8" TDR Rods	\$55.00
STI-6435TS	Infrared Temp Sensor for TDR 350	\$285.00

Special Pricing ends April 30, 2019

FieldScout Mobile App Pro version showing a Google Map view of a golf green in Freeform Mode
