

**The Nordic Plow Core Collector is pre-assemble to save you time so you can get back to the job at hand - clearing off those greens & tee boxes! Follow these few steps and you'll be back to work in no time!**

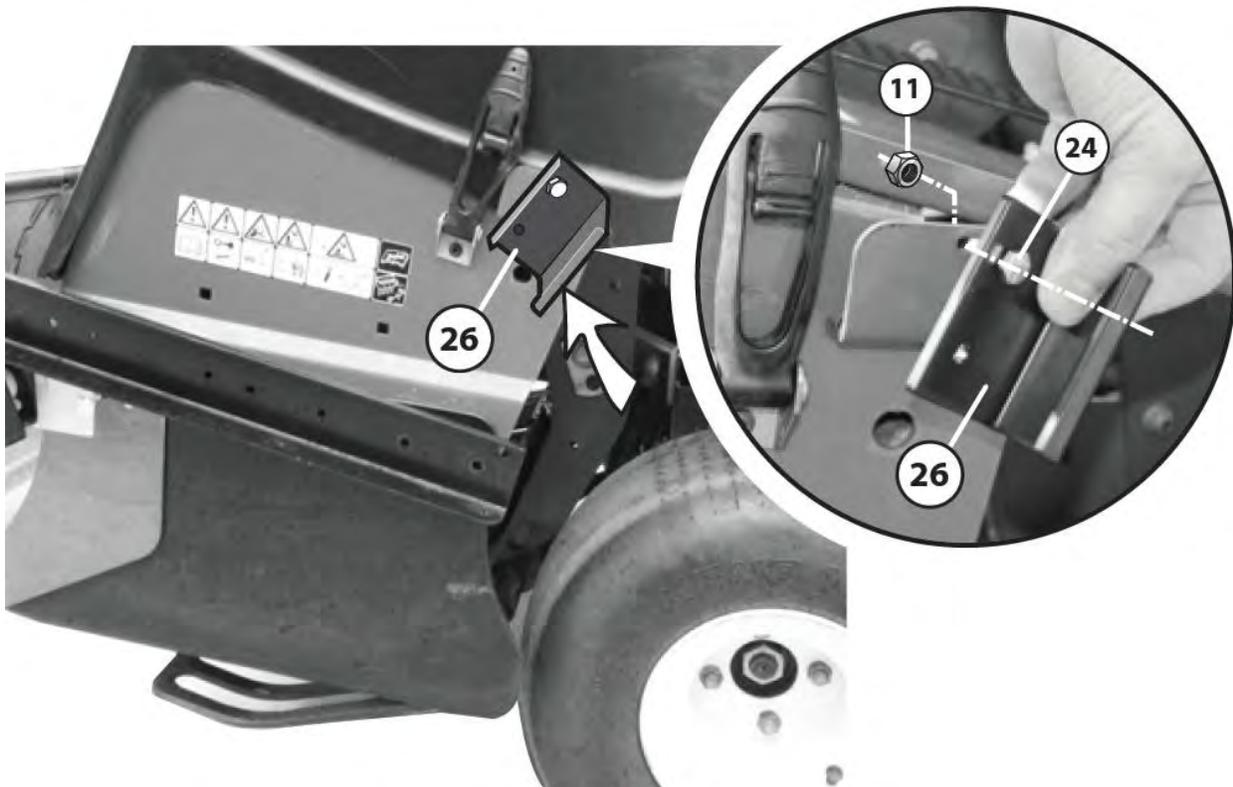

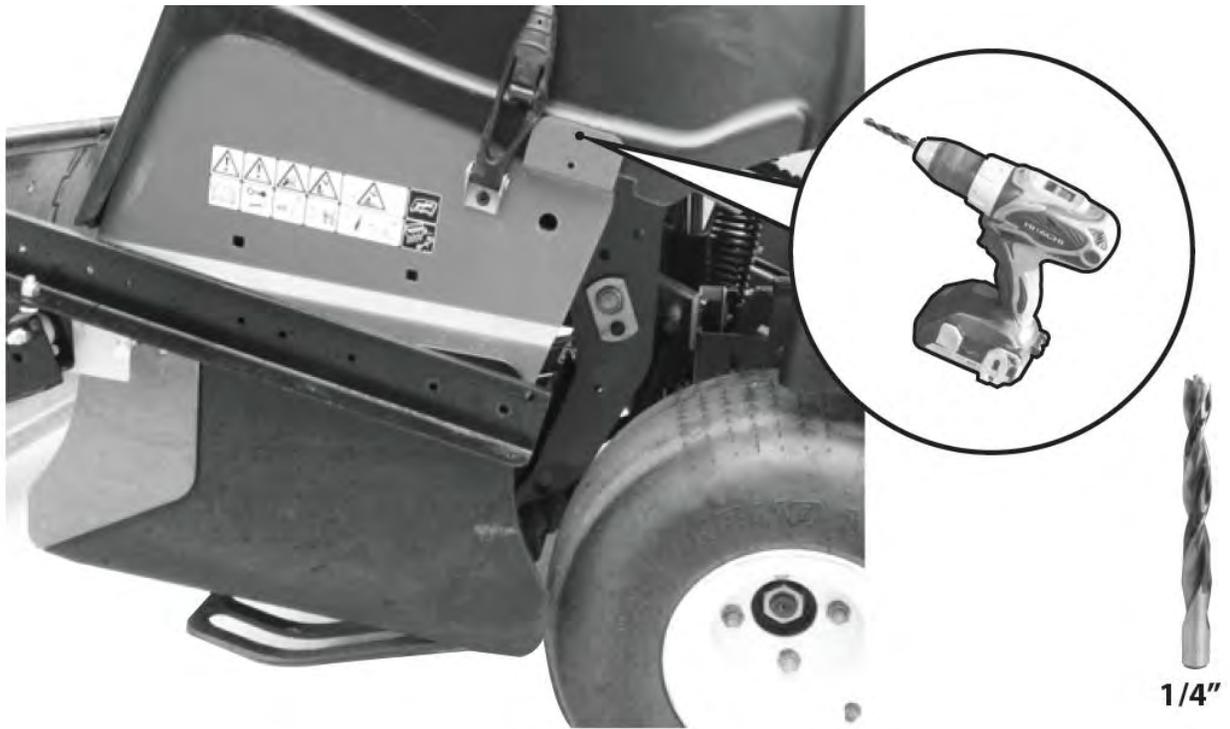

*STEP 1: Attach the two end caps as shown below to the blade - don't over tighten the bottom bolt to allow for the side fins to up or down with some tension.*

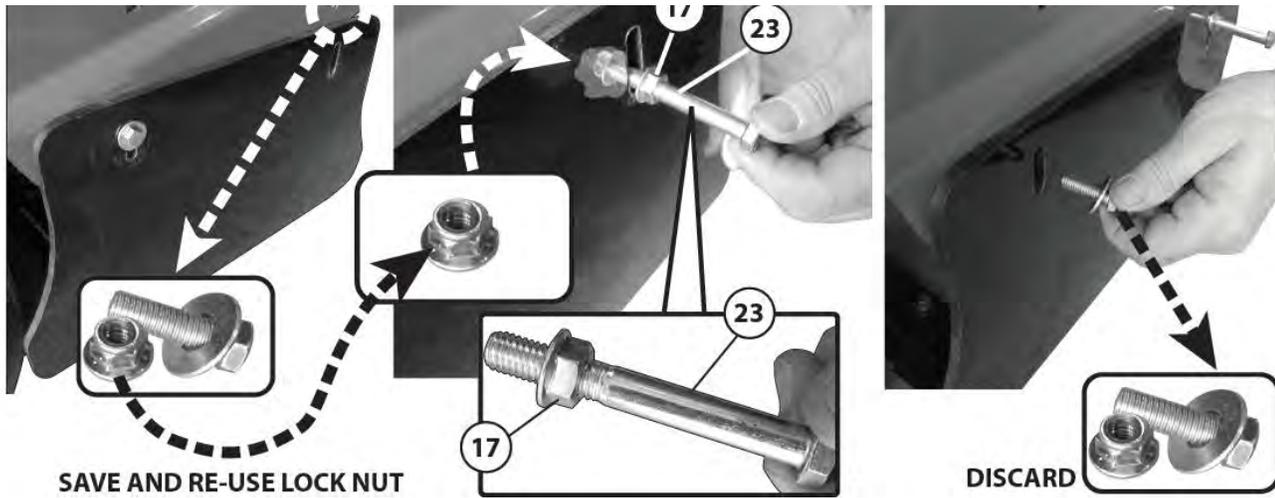

**STEP 2:** To attach the brushes, place the blocks as shown with the smooth ridge facing down. Place brush channel against blocks and tighten the screws. Note that there is a right and left side to the brush channel.

**STEP 3:** Attach the travel brackets to the ProCore by drilling out the top hole of the bracket as shown with a 1/4" bit - be careful not to drill into the plastic cover. Attach the bracket as shown in the lower picture - nylon locking nut on the inside. Do not over tighten - allow for the bracket to swing freely.

**STEP 4:** Remove the bolts holding the side panel of the Procore 648 and save. Attach the end of the side arms into the hole closest to the wheel as shown. Be sure to use the nylon locking nuts. Tighten securely but allow for some rotation of the arm.

**STEP 5:** Lift the blade into the resting brackets. Insert the 3inch 3/8" bolt along with the 4 nylon spacers into the back hole and tighten securely. For security, attach a bungee cord or strap while in this travel position. Carefully lower the Core Collector until it rest on the bolts with the spacers.

## ***OPERATIONAL TIPS***

***Adjust your Side Fins - Operate the unit as though you are coring the plugs **WITHOUT THE TINES ON THE UNIT.** This will allow the Core Collector to rest on the turf. While in this position, quickly turn off the ignition key. Tap down on the side fins until flush with the turf and then tighten the two bolts through the side fins and into the end cap. Be sure to allow for some movement so the side fins can move up or down with the green undulations.***

***Adjust the brushes by adding or removing washers as needed - additional washers have been supplied by us.. If you require stiffer brushes, they are available for an additional charge. Please call us if you have any questions or suggestions.***

***Thanks for choosing Nordic Plow!***
