## WALK BEHIND GREENS MOWER ATTACHMENTS

Walk behind greens mowers... *we have an attachment for that too!* True-Surface® is not just a triplex greens mower attachment anymore, True-Surface® Trekker™ products are designed to *attach directly* to your walk behind.

The True-Surface® Trekker™ product line consists of 2 separate attachments that fasten to your walk behind.

- True-Surface® Trekker™ Vibe V™ Vibratory Greens Roller
- True-Surface® Trekker™ Greens Care Collection

### Vibratory Rollers That Walk

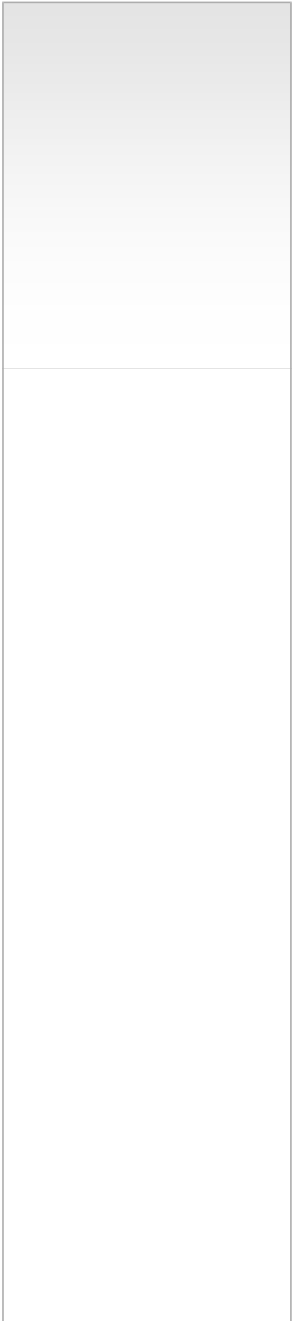

The Trekker™ Vibe V™ Vibratory Greens Roller is equipped with patented True-Surface® adjustable vibratory technology. Its adjustable vibration allows you to roll for turf health, speed, and consistency, while also letting you vibrate-in sand topdressing, remove dew, and smooth the greens after core aeration. The Trekker™ Vibe V™ offers 5 vibration settings to accomplish different tasks:

1. Establish new greens
2. Regular greens rolling
3. Vibrate-in sand topdressing
4. True your greens after aeration
5. Prepare for tournament play

\*The True-Surface® Trekker™ Vibe V™ offers the same great benefits as the original True-Surface® Vibe V™. The only difference between the two is that the Trekker™ Vibe V™ attaches only to walk behind greens mowers, and the Vibe V™ attaches only to triplex greens mowers.

### Walk Behind Versatility

The second Trekker™ product is the True-Surface® Trekker™ Greens Care Collection. The Trekker™ Greens Care Collection consists of 1 frame designed to mount directly to your walk behind greens mower, and 12 interchangeable inserts to fit inside that frame. With 12 different inserts to choose from, you can perform almost any turf care cultural practice using your existing walk behind greens mower.

\*The **True-Surface® Trekker™ Greens Care Collection** offers the same great benefits as the original **True-Surface® Greens Care Collection**. The only difference between the two is that the Trekker™ Greens Care Collection attaches only to walk behind greens mowers, and the Greens Care Collection attaches only to triplex greens mowers.
